## PROFILE

Telecommunications Engineering student at Telkom University with strong interest in Computer Networking, IT Support, IoT, and Web Development. Experienced in technical troubleshooting, network fundamentals, and project development through academic projects and internship experience. Certified in Cisco CCNA Introduction to Networks and BNSP Computer Networking, with a passion for continuous learning and problem-solving.

## EDUCATION

**Telkom University** – Bachelor of Telecommunications Engineering (2023 – Present)

## CERTIFICATIONS

- **CCNA: Introduction to Networks** – Cisco Networking Academy (2025)
- **BNSP Competency Certificate** – Computer Networking (2023–2026)
- **PT PLN Internship Certificate**

## PROJECTS

### Smart Lighting System

- Developed an Arduino-based smart lighting system using ultrasonic and LDR sensors.
- Implemented automatic lighting control based on object detection and ambient light conditions.
- Integrated LCD display and PWM control for brightness adjustment.

### AI & Machine Learning Project

- Developed machine learning models using Google Colab.
- Performed data preprocessing, analysis, prediction, and model evaluation.
- Applied machine learning techniques to solve data-driven problems.

### Personal Portfolio Website

- Developed a responsive portfolio website using HTML, CSS, and JavaScript.
- Designed an interactive user interface to showcase projects, certifications, and experiences.
- Implemented responsive layouts for desktop and mobile devices.

## EXPERIENCE

**PT PLN (Persero)** – Electrical Technician Intern | Jan – Feb 2026

- Assisted in electrical equipment inspection and maintenance activities.
- Supported technical documentation and operational monitoring.
- Participated in troubleshooting and field maintenance tasks.

## SKILLS

### Networking

- LAN Configuration
- IP Addressing
- Subnetting
- Routing and Switching
- Network Troubleshooting
- Cisco Packet Tracer

### Web Development

- HTML
- CSS
- JavaScript

### Tools

- GitHub
- Visual Studio Code
- Google Colab
- Microsoft Office
